The JWS division of Command Alkon Introduces COMMANDtrack

Shawnee Mission, KS – December 11, 2008: The Bulk Materials division of Command Alkon, a global leader in integrated solutions for the construction materials industry, is pleased to announce the release of its new **COMMANDtrack** product for the aggregate, cement and asphalt industries.

COMMANDtrack uses existing GPS tracking technology that lets you know where your trucks are at all times. Additionally, COMMANDtrack will help you achieve greater efficiencies in managing your truck fleet by providing flexible, user-friendly dashboard views that display real-time status information on each vehicle. This new program is designed to integrate seamlessly with our existing Apex 4 Order/Vehicle Dispatch program for scheduling product deliveries. This complete solution will provide timely, accurate information to help get products delivered efficiently and on time.

The JWS division of Command Alkon is a leading supplier of truck scale ticketing and billing software to the aggregate, asphalt, and cement industries. Since 1988 they have supplied over 2,300 locations throughout North America with comprehensive, easy-to-use software. For more information about JWS, please visit their web site at www.jwscorp.com or call +1 (913) 384-0880.

Command Alkon is a Birmingham, Alabama based company with offices in Columbus, Ohio, Shawnee Mission, Kansas, the UK, France, Netherlands, India, Colombia, and Australia. Command Alkon has been a long-term, financially stable provider to the construction materials industry for over 30 years.

Command Alkon offers 24-hour customer service seven days a week. You may reach a Command Alkon representative through its web site at www.commandalkon.com, or call toll free from the U.S. or Canada at 1-800-624-1872. If outside of the U.S. or Canada, please call +1-205-879-3282.
