### ***Command Alkon becomes exclusive reseller of ScheduleCom***

---

**Birmingham, AL – July 31, 2006:** Command Alkon, a global leader in integrated solutions for the construction materials industry, is pleased to announce that it has become the exclusive reseller of ScheduleCom voice scheduling system to the construction materials industry. ScheduleCom is the product of CenApps Technologies, Inc. “Adding ScheduleCom to our COMMANDseries product suite provides flexibility and savings opportunities for ready mix and aggregate producers in planning and communicating driver start times,” says Lenny Morris, Director of Product Management for Command Alkon.

ScheduleCom is a voice based schedule publishing and retrieval system designed to accelerate the process of communicating schedule information to employees in dynamic work environments. Using only a web browser, dispatch personnel can quickly compose and publish a schedule of employees, locations, vehicles and start times. Once the schedule is published, an employee calls into the system from any phone to hear their schedule as well as any employee announcements. CenApps Technologies, Inc. President, Vann Brauning says, “We are thrilled to be working with Command Alkon to bring the benefits of the ScheduleCom product to market. Their proven record of success in the industry is exactly what is needed to kick this off.” John Cromeans, Senior Vice President of Command Alkon adds, “Integrating ScheduleCom with existing COMMANDseries modules as well as several new products under development will provide enhanced value to customers moving forward. Our sales and support staff look forward to handling this exciting new product.”

Command Alkon is a Birmingham, Alabama based company with offices in Columbus, Ohio, the UK, Netherlands, and Australia. Command Alkon has been a long-term, financially stable provider to the construction materials industry for over 30 years.

Command Alkon offers 24-hour customer service seven days a week.
