

BAR CODE PRINTING

Part Number: 24758

DESCRIPTION:

This feature allows bar codes to be printed on delivery tickets so that information from the bar code can be scanned into a company's business system.

The following bar code formats are supported:

EAN-8, Code 39, Interleaved 2 of 5 (also called Code 25), and Code 128.

OPERATION:

When a ticket is generated, bar codes are printed on the top part of the ticket.

SYSTEM REQUIREMENTS:

A ticket printer that supports bar code printing.

IMPLEMENTATION:

- A ticket printer must be configured.
- A custom delivery ticket must be formatted for bar code printing.
- Save the custom delivery ticket in the Custom directory so that it will not be overwritten when you upgrade to a newer version of COMMANDbatch.
