

SILO SHAKER SWITCH w/TIMER

Part Number: 23833

DESCRIPTION:

This option provides control for equipment that shakes material from the dust collection bag back into the silo.

OPERATION:

The operator presses and releases the momentary CEM SHAKER button on the manual station to activate the shaker. The standard length of time the button stays activated is 5 seconds. When this time expires, the shaker deactivates.

SYSTEM REQUIREMENTS:

- CEM SHAKER output - an unassigned I/O position controlled by a pushbutton on the Manual Station.

IMPLEMENTATION:

- Install the Opto module in the correct slot in the J-Box.
- Configure the CEM SHAKER pushbutton on the Manual Station.
