

COMMANDqc Statistical Strength Report (CMDQC-ACISR)

Description

The Statistical Strength Report module generates a "Strength Performance" report that can be used to demonstrate performance of a selected mix or group of mixes according to ACI 214 and ACI 318 guidelines. The Report can be used as-is or attached to a mix submittal report.

Features

- Report can be saved with the mix or generated on demand for inclusion in a mix submittal
 - Uses any desired number (typically 15 to 30) of recent test results and calculates statistical summary information per the ACI specifications
 - Configurable report layout can include your company logo
 - Options to select multiple test ages and/or other test results such as air content, temperature, density, etc.
-
