

COMMANDqc ACI Statistical Report (CMDQC-ACISR)

Description

The ACI Statistical Report can be attached to a mix submittal report. This will provide confirmation of compressive testbreak data for a selected mix or group of like mixes to statistically demonstrate performance according to the guidelines show conformance to the strength requirements of ACI214.

Features

- Report can be saved with the mix or generated in real time for inclusion in a mix submittal
 - Uses the most recent 15 to 30 test results and calculates statistical summary information per the ACI specification
 - Allows a user configurable report layout that includes your company logo
 - Ability to statistically combine test results from multiple mixes with similar characteristics
-

Prerequisites

- COMMANDqc Base Module (CMDQC-BCP)
 - COMMANDqc Concrete QC and Lab (CMDQC-CQCL)COMMANDqc Production Analysis (CMDQC-PA)
-

Notes

- None
