

COMMANDqc Mix Submittal (CMDQC-MIXS)

Description

The Concrete Mix Submittal program creates electronic mix submittal documents in "pdf" format. These are created by selecting the required mixes, adding customer details or other electronic documents as required forming one combined document that can be emailed.

Features

- Customize mix submittal sheet specific to your company e.g. logos and company specific disclaimers etc.
 - Advanced filtering when retrieving submittals or mixes.
 - Standard mix designs can be edited then copied to a submittal
 - Calculated fields include yield, mix cost, unit weight, w/c ratio, water lb and gal
 - Option to include calculated combined gradation and specification sheets
 - Option to include internal notes to track mix and submittal modifications.
 - Attach any internal COMMANDqc or external document to form one combined "pdf" document,. E e.g. eExternal supplier cement certificates, COMMANDqc mix statistical sheets
 - Print and fax or email.
 - Supports full archiving and version control
 - Option to automatically create and attach an up to date ACI Statistics Report
 - Preview and arrange documents in the desired order
 - Customized submittal configurations allow help to make sure the right documents are included with each submittal
-
