Sales Reports (CA-SR)

Description COMMANDaggregate's Sales Reports (CA-SR) module measures sales dollars, quantity, and average sales dollars per unit for various reporting levels.

- Features**
- Sales Reports—shows sales (revenues and quantity) and sales per unit information by various plant related combinations, such as plant, plant/product, product/plant, etc. User-defined reporting date ranges and summary levels required can be selected, such as daily detail based on month-to-date, year-to-date, etc. The following fields are available to produce a report. Combinations are defined by the user and based on the configuration in the COMMANDexecutive Database.
 - Price plant code
 - Price company code
 - Ship plant code
 - Ship company code
 - Customer code (billing)
 - Ship customer code
 - Reference customer code
 - Customer sort name (billing)
 - Ship customer sort name
 - Reference customer sort name
