

## COMMANDexecutive (CC-EX)

---

**Description**      The COMMANDexecutive (CC-EX) software package includes a set of modules designed to provide executive management with reporting tools. The package offers a number of standard reporting devices and the option to develop your own reports.

---

### Features

- Posts ticket/product information from COMMANDconcrete or COMMANDaggregate into detail table entities as well as summarized tables based on user-defined selections.
  - User-defined summarized data with up to five different summary levels. Compression of summarized data to a user-defined period of dates.
  - Maintains three tables:
    - o Sales Analysis Detail – Contains a single record for each individual ticket line-item, associated product.
    - o Sales Analysis Summary – Contains summarized information based on posted records.
    - o Time Analysis Summary – Contains records summarized for each driver, truck, customer, project, and shipping plant.
    - o Offers compression routine to combine dates in the summary sales and profit table into a single monthly record.
  - Sales Reports – Supply total product sales figures in the form of quantities, sales amounts in monetary terms, or both. Four basic categories: primary products, associated products, other products, and haul charges.
  - Gross Margin Reports – The total sales minus the material costs, or the gross margin. Can also display the gross margin per primary sales quantity. Four basic categories: primary products, associated products, other products, and haul charges.
  - Contribution Reports – Combines material costs and overhead costs to provide average cost per quantity for delivered materials and average profit per load, hour, and quantity.
  - Time Analysis Reports – Supplies information associated with driver, truck, and related delivery times. Differs from similar reports available in COMMANDconcrete and COMMANDaggregate because they allow reporting times for a range of dates, and because they do not provide ticket-level detail.
  - Exception Time Reports – Allows you to evaluate trends in controllable issues related to individual job status times. Examine time usage in a single status or a range of statuses, or compare time in different statuses.
  - Top Customer Report – Supplies customers' total sales and profits ranked in order of total sales, total profits, or total quantity of concrete or aggregate.
